

# Certified ScrumMaster Seminar with Agile Project Management

Combines Agile Project Management with Scrum (2 days) and the Certified ScrumMaster Seminar (1 day)

In this package of two courses participants learn how to guide a team, a project, or an organization into a process of rapid delivery of valuable results. We will also focus on the role of the ScrumMaster (or Agile Project Manager) as an enabler of hyper-productive teams. Exercises, case studies, and examples are used to assist participants to develop the knowledge, skills, capabilities, and insights needed to make the shift from traditional management practices to Agile practices.

## The Learning Objectives for This Seminar are:

**One:** Describe all parts of the Scrum framework

**Two:** Promote and sell the Scrum framework to leaders, managers, and team members

**Three:** Launch a Scrum team using a step-by-step process

**Four:** Overcome typical obstacles as you launch Scrum

## Audience:

This course is for anyone wishing to learn about the role of the agile project manager and process facilitator, and to become a Certified ScrumMaster. It is appropriate for managers, team leads, project managers, and product managers.
